

DM2007 Interactive II Showcasing

Friday 17 April 4:30 - 7:30PM

Please join General channel with DM2007 Showcasing team in MS Teams.

Our guest professors, please join us at the available times as stated in your emails.

Basic Guidelines

Assembled according to the experiences so far:

- Your presentations should be 10 minutes long, followed by 10-15 minute discussion by guests.

- Upload your PowerPoint presentation slides deck online, and share a link in chat section of the meeting channel - well before the showcasing session. This is useful in case the share screen gets laggy or does not work for some guests with slower connection.

- If you are using a WiFi router and have a spare LAN cable, connect your computer directly to the router via LAN cable for faster and more stable connection.

- I recommend downloading and installing the MS Teams desktop app which proved to be less laggy and more stable so far.

Alternatively you can use MS Teams via Office 365 suite, in which case run it in Chrome web browser.

In both cases, restart the MS Teams application (or Chrome) before joining the meeting.

- If on Chrome, close all tabs except the one for MS Teams and one additional for browsing if you need it.

If on MS Teams app, close Chrome altogether or keep just one tab open for browsing if you need it.

- Turn off/disconnect your VPN software if you are using one. You don't need it for showcasing, and it slows down your connection.
- Close other applications and devices connected to the Internet.

Presentation order

1. Praveen, Ruihong, Eugene
2. Jessie, Daryl, Yi Dan, Yixue
3. Natalie, Amanda, Sylvia, Wei Lin
4. Emma, Meishan, Wan Hui, Yee Teng
5. Jasmine and Sze Wee
