

OSS Quick Guide: Adding Widgets

In this guide, you will learn how to add widgets (Tag Cloud)

1 → Appearance

2 → Tag Cloud

3 → Sidebar

4 → Save

5 → TAGS

advertisement advertising annual
report art body collaboration collective
communication creation culture data
dedication eating final project food glitch
interaction internet max media media
performance mediated mobile mokbang
movement narrative nicholasfeltron open source
peep culture performance pictures
privacy project selfie shapes social social
media telecommunication telegarden
telematics telematic space third
space virtual visualisation
webcam

Steps / Action Descriptions

1. The Tag Cloud widget will open up so you can give it the title **TAG CLOUD**
2. You can return to your home page and see your **TAG CLOUD** building as you add tags to your post.
3. Add a **TAG CLOUD** which is a widget to the sidebar.
4. At the bottom of the **AVAILABLE WIDGETS** you will see **TAG CLOUD**. Drag it up to the list of sidebar widgets as in the example.
5. You can insert it wherever you want the Tag Cloud to appear.
6. Go to **APPERANCE / WIDGETS** in your sidebar
