1 | the perfect choreo

; the concept

Composition 1, the perfect choreo, depicts a routine consisting the three planes through swirling upwards, rolling diagonally, both using twisted planes and reaching sideways, using a straight plane.

2 | thebridging

; the concept

Composition 2, thebridging, depicts the crossing of a bridge. Using the broken plane as a bridge, the straight plane seems like the one crossing to the other side. Tapping on the shape of the twisted plane, it then depicts the rough currents of the river beneath the bridge.
