**Overall flow:**

45s long would be uncomfortable "silence" on the boat because of the minimal things going on

During this 45s:

- To mimic people on the boat as well without having to explicitly show their faces  
By mimicking ,vomiting and people walking by
- Rain
- Scorching Sun
- Stomach grumbling

Next 15s:

- Boat hits near shore
- Food is being distributed
- Someone shouting 'We have distributed to you food and water but we can't take you in' in Burmese
- Gunshots- how countries turn refugees away

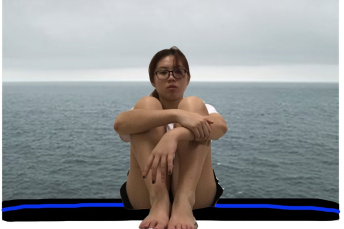

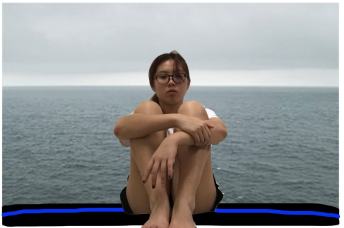

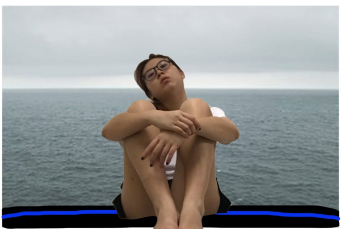

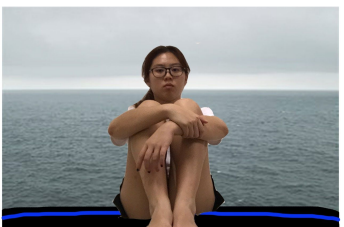

Message to drive home: These Rohingya Muslims have to go through a **long** boat in the sea, exposed to the wilderness, yet they have no guarantees of refugees

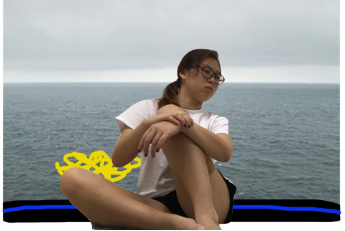

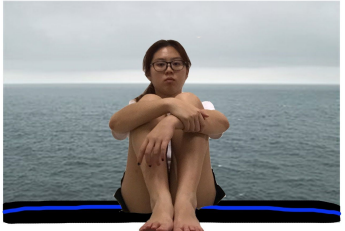

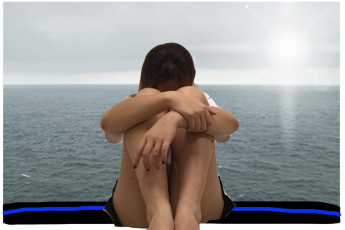

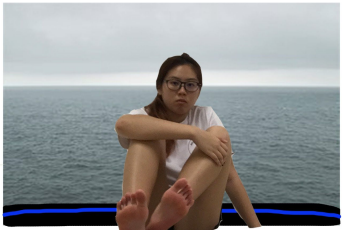

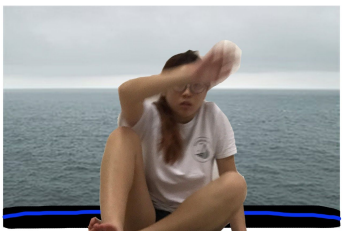

**CREW:**
