

Dear Interviewee,

Thank you for being a part of this interview! Your participation is greatly valued. Here are some things for your better understanding before we begin:

1. This interview is designed to be thought-provoking. In our short video, we hope for you to discuss with us your innermost aspirations for and the bond you share with your loved ones/next generation, and how you would like to be remembered while present on Earth (i.e; while still alive).
2. Recordings made of you or anything pertaining to you will not be freely disseminated and will be handled with utmost professionalism.
3. A copy of the finished documentary will be sent to you as a token of gratitude.
4. We hope you will be able to answer sincerely and honestly during this interview. Because the questions posed might be a little sensitive, we apologise if you may feel uncomfortable or offended, and it is never in our intentions for you to feel as such.
5. You may choose not to answer any of the questions we pose if you wish to maintain privacy. That being said, any information we receive from you will be kept to the confines of this project and will not be abused otherwise.

Should you have any other queries or uncertainties, please feel free to contact your respective correspondents.

Yours Sincerely,  
The Project E.I. team.
